Arizona Corporation Commission  
1200 West Washington  
Phoenix, Arizona 85007

ORIGINAL

Dear Commissioners,

I am the owner of a small business in Arizona, and I truly believe in conserving energy. Initially, energy conservation was touted as being as simple as turning off the lights when not using them. Now, however, there is so much more one can do to contribute by being energy efficient. I have done my share in making my business more energy-friendly as it is beneficial for both public health, as well as my pocketbook. I believe that other businesses should be presented with such an opportunity. The way I see it, the Energy Efficiency Standard is the only way to bring this about. Please implement it; small businesses throughout Arizona will thank you.

Regards,

**Mike Martinez**
